“ Dr. Pelletier was a gentle man. He wasn't my doctor, but I grew up with his kids and I could always tell by the way he spoke and treated others. Good doctors have this same gentle quality, and that's how I'll remember Dr. Pelletier. I'm so sorry to hear this news and will be praying for comfort the family.

“ Mrs Pelletier I was so shocked and sadden to hear of Dr P passing. I was his admin support for many years in family medicine and could always see his compassion and care that he showed to not only his patients but also his coworkers he was a wonderful physician and friend and such a Godly example before all he worked with. I have many wonderful memories of our talks through the years and know my life was enriched by meeting and having the opportunity to work with him. He loved the Lord and his family and always spoke of both often . You and your family will be in my thoughts and prayers. May God comfort you all in the days ahead. Sincerely Hope Cason.

“ Dr Pelletier was truly one of a kind- he was this rare breed of doctor that still cared for every patient beyond their choices and never lost hope for any one of them. He not only showed them Empathy but taught us to do the same. He wasn't jaded by his time in the field. He had the same care and concern for everyone in the same way. This is something beyond medicine. Truly one of a kind.

“ During my residency at MCG, I worked closely with Dr. Pelletier. I had multiple inpatient services with him, as well as worked with him countless times in the clinic. He has had such a tremendous impact on me as a young physician and the amount I have learned from him is truly unmeasurable. He always encouraged us to consider the bigger picture and to think outside the box when it came to our patients. I wouldn't be the doctor I am today without the wisdom and guidance I received from Dr. Pelletier. I offer condolences and prayers from my family to yours; may his soul rest peacefully.
