“ dave mets was one of my heroes. he was ill treated by leaders at the air force academy denying him promotions because of the 1,2,3 system. his flying career demonstrated command success and flying success. he spent time during the vietnam war to prepare me for my next assignment as a teacher in the history department. he also helped my performing as a true combat leader. my life after vietnam was mainly in military academe at the academy and teaching at various war colleges.. i saw a great deal of dave when he excelled at the air university. we have all lost a great person

“ Such a wonderful man and a great professor. I just quoted him the other day. One of his quips of wisdom that I often tell others. He told me about his secretary telling him "Dr Mets, if you have to tell people you are great, you probably "Are-ent"" Dr Mets never had to tell people he was great. And he was a great man. Please accept our condolences. Marc and Pamela Felman

“ One of the true greats of his generation(s). His thoughts, ideas, and teachings are a huge part of the intellectual foundation of hundreds of students--many of whom have led or are leading our Air Force today.

Blue skies and tailwinds, my friend.

“ Well, Daddy, call me sentimental but I will share this song that I often heard you sing. Fitting for Feast of Epiphany this week. Glad you got your wings back... Save me a place. Love, Evelyn

Evelyn Mets - January 08 at 12:05 PM

“ To dream the impossible dream,
To fight the unbeatable foe,
To bear with unbearable sorrow,
To run where the brave dare not go;
To right the unrightable wrong,
To love pure and chaste from afar,
To try when your arms are too weary,
To reach the unreachable star;
This is my quest, to follow that star
No matter how hopeless, No matter how far,

To fight for the right without question or pause,
To be willing to march into hell for a heavenly cause.
And I know if I'll only be true to this glorious quest,
That my heart will lie peaceful and calm when I'm laid to my rest.
And the world will be better for this,
That one man, scorned and covered with scars, still strive with his last ounce of courage,
To reach the unreachable star.

Evelyn Mets - January 08 at 01:17 PM

“ Dave. You are one of the very finest examples of an Airman--you flew, fought, and taught. You served a career in the Air Force and then instructed several more generations on airpower and leadership. "Sun Tzu, Clausewitz, Mets." Thank you for all you gave...

“ Dave was a force of nature and a great story teller. Some of my fondest memories orbit around the SAASS lunch table listening to his tales of glory. A gifted teacher and prolific scholar, Dave was most of all a friend who I'll miss him more than he can imagine. Rest in peace dear friend; I miss you.

Jim Forsyth - January 03 at 10:56 AM

“ My most sincere condolences for the loss of my dear friend and mentor, Dr. Mets. In SAAS Class III, he was my instructor and close friend. We will miss him dearly.
Sam Angelella, Lt Gen, USAF (ret).

Sam Angelella - January 03 at 08:38 AM

“ Dave Mets was my advisor at SAAS and we grew very close, but above all he was a great mentor and friend. He always knew how to provide sound advice and a gentle guiding hand when the pressures of the program seemed overwhelming. The world has lost a wonderful person and it will forever seem a little more lonely knowing he is gone.

David Estep - January 03 at 05:29 AM

“ Dave was an unusually good man and outstanding scholar. He had a rock like integrity and was a true patriot. As a teacher, he was the type who students gravitated towards because he was so knowledgeable but also approachable and understanding. I thought the world of him.

Phil Meilinger - January 02 at 07:15 PM

“ What an incredible life he lived! I can only imagine what an interesting man he was to talk to! And I guess Joey knows what he will look like when he is older... the younger Lt. Col. Mets reminded me of Joey.

Prayers for safe travels and for peace. I know his service will be beautiful!.

Love to the Mets family...Cindy

“ LTC Mets was my History 348 "Development of Airpower" instructor when I was a cadet at the U.S. Military Academy at West Point, NY in 1973. I have kept the class readings for that course that LTC Mets put together since I graduated in 1974. In fact I used those class readings as sources when I was developing a detailed outline to support my efforts as a volunteer tour guide at the National World War I Museum and Memorial. The memorial is located just south of Union Station in downtown Kansas City, MO. LTC Mets is one of only a few of my professors that I distinctly remember from my four years at the academy. I was very saddened to hear of his passing. My prayers to his family.
