“ I met Alfie about 20 years ago when I attended a supper at the Gum Swamp Hunting Club. He and the other members made me feel like a part of the group. So much so that for years I would drop hints that I was interested in joining but membership was never available. Then about 10 years later, I had the pleasure of working with him, periodically on paving projects at SRS and in the last 2 to 3 years, I worked with him quite frequently. He was a "company man", no doubt! He sternly advanced the business of Beams / Grade South at SRS and was instrumental in many successful bids for projects on site and saw that they were carried out according to contractual guidelines. His knowledge and experience were valued, not only by his employer but by those of us that covered projects on the SRS side, as well. He was a good friend also. We had a commonality, or you might say a bond. He and I were receiving cancer treatments at the same time and on one occasion, we were seated next to each other while receiving infusions. We would often ask each other how each was doing, and we spent a considerable amount of time just talking about life. I will miss my friend but in no way as much as his wife and family will. My thoughts and prayers are with them. God bless you all.
