“ *My deepest condolences to the family. I was a classmate of Andy's at Southwestern (Rhodes College) and remember him well. We had a date our freshman year -- but Andy had much better taste than to ask me out a second time! Though I haven't seen him since college days, his obituary shows that he had a wonderful life with a loving family -- and my heart goes out to all of you.*

“ Andy was my first friend at the SRP in December 1979 when I began work for DuPont, and we carpooled together for a while, as most site employees did then. Being the cheerful, competent mathematician, he said by carpooling, we had reduced our driving tasks by 50%. He worked in the Savannah River Laboratory and continually expanded his roles as the site's unique information technology exploded with changes to hardware, software, and connectivity; he met daily challenges from early mainframe operations as an isolated site during the cold war, to global network operations with increasing security demands, always with the highest degree of skill and dedication, coupled with his easy manner, at once serious and relaxed. I enjoyed working with him through the years.

With sincere sympathy for his family, Betty Meadows

“ Carlene,

You know how we feel about you and Andy. We have great memories to make us realize how fortunate we were to have known Andy. He was a special person and dear friend whom we had for over 33 years. Not only was he a dear friend to us, but a wonderful husband to you, a great father to Andrea, Mary, and Tim, and caring step father to Justin and Lauren. While he passed away too soon, we count our blessings for having had him as an important part of all of our lives.

“ *Andrea and Family, I am so very sorry to hear of your loss, I lost my Dad in 2004, he was 65 then. We feel like our Dads should always be there, supremely smart and strong and our fathers were just that. Cindy and I still talk about your dad tutoring us in algebra and catching us in the fridge late at night "sneaky peas". I miss your mom too and all her animals. They were wonderful, loving, caring parents and my heart goes out to you to have to go through this devastating loss. I know you have his characteristics of strength, intelligence and love. God Bless you all and will see you soon.*
Love,
Leslie
