“ Mrs. Kichline is one of the reasons I became a teacher. She taught me math in the 5th grade and then again in the 7th grade at Wheelless Road Elementary. We were each other's favorites, and she always created opportunities for me to do excel beyond the classroom; including allowing me work with small groups in her teacher buddy Mrs. June Simon's class. She loved my mother's sweet potato pie, and remembered it every time I spoke with her during her retirement. When I became an administrator, I purchased two memorial bricks for the construction of the new South Carolina Association of School Administrators building --one of those us dedicated to Mrs. Kichline.
