“ I am so sorry for your loss. I never got to actually meet Gary in person. My first contact with him came about me needing help with my computer. A friend of mine and relative if yours, Peggy Tate, told me about him and gave me his number. That was the beginning of several years of him cleaning up my computer. He was a unique person, i had to get use to him fussing at me for something i did or setting i went into and shouldnt have. I relied on his expertise and we became friends. I spoke with him a few months ago and he seemed to be getting better. I will truly miss him as a friend and as my computer guru. Linda King, Woodbury, Tn
