“ James and I would always have something to talk about during each part of the year. Whether it was Thanksgiving, Christmas, New Year's or just a regular day. This time of the year we'd be talking about how it was time to put up the hummingbird feeders and the bee catchers. He'd always text me a picture of his first hummingbirds and bees. After that he'd text me with a running total of the bees he'd caught. James was such a joy to be around and he always had a smile on his face and a joke to tell. He could tell you a story and make you believe it was true until he finally had to laugh because he gotten you! James was always doing things for other people me included. He was truly one of a kind. I for one was glad he considered me a friend and I will miss him dearly!

James was a very special kind of person, the kind that I feel so blessed to be able to call one of my very dearest friends. James was always there and so willing to help a person anyway that he could. He was so kind, thoughtful, caring and also hilarious (I just had to that) He will be greatly missed and always loved by those that were fortunate enough to have had him in their life. I know I will always cherish my time knowing him and the memories I have.

*James and Nancy moved into our neighborhood (CTS). What time I shared with him was always a pleasure. I made a stop by his house not long ago and was surprised that he wasn't well. RIP my Friend.
