“ You came into my son's life 6 years ago and loved us all from the start. You've been my daughter in law for many years now and I have a large hole in my heart that left when you did. I know your not sick now and you're loving on Bella and Azy for us, but we miss you beyond words. You are loved.

“ Holly was such an amazing woman. She was like a second mom to my child, even though our sons were online besties. She made sure our boys got to meet in person and she took such great care of my son when he visited. She has raised amazingly kind children that reflect her kindness. You won't be forgotten Holly! Ill make sure the boys get to still hang out in the summer! Thank you momma for being you!

“ Aunt Holly it still doesn't feel real. I love you so much. And truly can believe you're gone. Your number rang my phone at 7:41. Already confused, I hear Bert's voice. And the news hit me like a freight train.

My aunt Holly was an amazing woman. A joy to be around. She lit up any room she was in. The life of the party so to speak. If I'd known that dinner at rhineharts would be our last, I would've stayed even longer. When my daughter was born. You and Bert sent us an amazing car seat and matching stroller, which we use daily! You never got the chance to meet my kids and that kills me. Amongst the crazy things that happened in my upbringing. You were there. You always spoke positivity into people and saw the good and true potential in anyone. I could spew words for hours but ittl never be enough to grasp the true beauty inside and out that you have. I love you aunt Holly. I'll never forget you. Thank you for everything. All the hugs, kisses, smiles and all the love. You took a big piece of my heart when you left. Please give your daddy the biggest hug and tell him I love him. Until we meet again ❤️
