“ I have been talking to Shawn a good bit these past few months. I know he suffered so much with that terrible disease but he has been completely healed. If we could see him now, we couldn't help but smile. God be with his family during this time.

*I'm a friend of Shawn. One that u my not know and I'm sorry. That he's gone. I think he gave up on his self when I told him in August mall that his best friend was dead which was my brother Mike they were when told him he turn white as snow that was two and half years ago which I didn't no how sick he was. Haven't heard anything from him since the early part of 2000 when he wrote a letter saying that he wanted to kill himself. He also had a contact # on which we called prayer that it wasn't to late. He answered once he find out it was us he pour down crying telling. About his mother greed and the secret that she keep. Cherry found out that the clinic that was be hide salthachia Allendale a.c. Wasn't a clinic that was just paying black people for a new medicine trail. That so called doctor was scientist who where was paid by wealth white folks of Allendale. When she realized that she had poison her oldest to kids for 25 dollar she lost it and told them if they didn't fix them she was gone to the tell everyone and channel six news. So she blackmailed them for money in alto keep her mouth shut . cherry made sign documents that they take care of them for the rest of there lives. Shawn didn't died of a disease he died because he was poison and had a parasite in him and he refused to. Take the med that they provided for him that way he died. Shawn said if she was go let that many innocent died for her greed than he was going to dye long with us cherry killed Shawn with greed and selfishness and the other brother went along with it wich he told what was going on n class one to me and Steven Sullivan we were classmate he look at me I'm dummer than bricks. After he been done told us how he was hearing vioces in his head telling him to do thing how he would weak up n the night and go out and come back cover n blood and dirty and cherry wanted what the hell was going on why he was all ways been that and why she was always finding dead animals in the yard with they're head pop off or chopped up. So cherry follow her other son two day later at 12.00am in the morning saw him doing things that a child shouldn't be doing and followed him al they way back to that science lab behind salt were she discovered the truth why he was acting the way he was acting and she showed out and then she show dollars signs cherry killed Shawn along time ago. I'm sorry for those who lost a good friend and love one but cherry u don't deserve any sympathy you could have prevented this along time ago by doing what Shawn asked of u. And that was to do the right thing u should never have to bury your Owen child .not when could have help it p.s Shawn woke me up out my sleep and say don't let me die invane didn't even no that he had past until 4nights ago when woke me up by saying he was sorry. r.i.p. my friend may u rest in peace as your words has been spoken throw me.*
