Dr. Jowers was my and my wife's physician for many years. He and I talked more about flying, since we were both pilots, and the Japanese bullet train (since we'd lived in Japan for many years). He was a professional, a physician, but most memorable, a quality human being that is rarely matched. Salute sir! Mission accomplished...job well done.

“ *I really enjoyed working with Dr. Jowers in the ER in Waycross. First time I actually piloted a plane was with him ... but not in the Tri-Pacer. He was my personal physician when I moved to Augusta and did my flight physicals. What a truly remarkable man, and friend. It was an honor to know him.*

“ Rest in peace Sir. Dr Jowers was my Dr from the mid 90s until he retired, and my Daddy's Dr before me. He was a friendly knowledgeable physician and very easy going. Prayers and condolences for the family.

“ Dr. Jowers was my doc and FAA Flight doc for many years from 1973 until he retired, and I stopped flying. He wasn't just that, he was a friend and part of the local flying community. He was chosen as Aviator of the Year at the Boshears Air Show/fly in, for 2013. There aren't any like him anymore.

“ I am saddened to learn of the passing of my friend, Ronald. He was one of the most generous people that I have ever known. He and I enjoyed flying his Piper Tripacer N3143Z. He was one of my students when I was a flight instructor. He was a great pilot. He was my personal physician for years and always did my FAA pilot physicals. He will certainly be missed by his many friends. Y'all are in my prayers. God bless you.
